

TABLE OF CONTENTS
SEMICONDUCTOR COMPETITIVE ANALYSIS
HARD DISK DRIVE CASE STUDY

SECTION 1	KEY FINDINGS	1-1
	Key Finding One:.....	1-1
	Key Finding Two:.....	1-2
	Key Finding Three:.....	1-2
	Key Finding Four:.....	1-3
	Key Finding Five:.....	1-4
	Key Finding Six:.....	1-4
	Key Finding Seven:.....	1-5
	Key Finding Eight:.....	1-6
	Key Finding Nine:.....	1-7
SECTION 2	REPORT SCOPE AND METHODOLOGY.....	2-1
2.1	Report Scope	2-1
2.2	Report Methodology.....	2-3
SECTION 3	INTRODUCTION	3-1
3.1	Value of an In-depth End-system Case Study.....	3-2
3.2	Technology Forecasting—Hard Versus Soft Revenues	3-3
3.3	Blue versus Green Dollars	3-5
SECTION 4	EXECUTIVE SUMMARY—SPECIFIC FINDINGS AND IMPLICATIONS	4-1
4.1	Preamplifier and Read Channel Mixed-signal Integration Opportunities	4-1
4.2	2002 Semiconductor HDD Revenue Composition	4-4
	4.2.1 HDD Preamplifiers.....	4-5
	4.2.2 HDD Read/Write Channel (Read Channel).....	4-6
4.3	Mixed-signal HDD Component Shipments by Technology—2002 to 2006	4-7
4.4	Functionality and Integration Trends of HDD Electronics	4-9
4.5	High-End HDD Features and Requirements of Leading Vendors	4-11
4.6	Benchmark Mixed-signal Semiconductor Products and Technologies	4-13
	4.6.1 STM Veloce and Pianissimo (0.35 SiGe BiCMOS) Preamplifiers	4-13
	4.6.2 TI SR1740 Preamplifier and new SiGe BiCMOS Technologies	4-16
	4.6.3 Agere RC6500/RC6500LP Read Channel Devices.....	4-18
4.7	IBM SiGe Technology Portfolio and Mission.....	4-19
	4.7.1 Epilogue	4-21
	4.7.2 IBM New Semiconductor Business Model	4-23
4.8	Relative Competitive Positions of Key Semiconductor Technologies.....	4-24
	4.8.1 Primary Direction of IBM's Grand Plan for SiGe Technology	4-26
4.9	Analog-Digital Signal Spectrum™ Model.....	4-27
SECTION 5	RELATIVE COMPETITIVE POSITIONS OF KEY SEMICONDUCTOR TECHNOLOGIES.....	5-1
5.1	Performance-Complexity Matrix of Semiconductor Technologies	5-1
5.2	Classification of Mainstream Semiconductor Technologies.....	5-4
	5.2.1 Silicon Material Technology Class	5-4
	5.2.2 SiGe (Silicon + Germanium) Compound Materials Technology Class.....	5-5
	5.2.3 III–V Compound Materials Technology Class.....	5-6
5.3	Speed x Power Value and Trade-off	5-7
5.4	SiGe Technology Extension Potential.....	5-9

SECTION 6	ANALOG-DIGITAL SIGNAL SPECTRUM™ MODEL	6-1
6.1	Two Perspectives on Mixed-signal ICs	6-1
6.1.1	System Board Perspective—Component's Role	6-3
6.1.2	Component Perspective—Components' Relationships	6-4
6.2	Competitive Position and Technology Reach across the A-D Signal Spectrum	6-12
6.2.1	Case 1: Analog Performance Determines Design Implementation	6-13
6.2.2	Case 2: Digital Performance Determines Design Implementation	6-13
6.2.3	Case 3: Mix of Analog and Digital Performance Determines Design Implementation	6-14
6.3	Competitive Position and Reach of SiGe Bipolar Technology	6-15
6.4	Competitive Position and Reach of SiGe BiCMOS Technology	6-16
SECTION 7	HARD DISK DRIVE (HDD) APPLICATION TRENDS	7-1
7.1	Functionality and Trends of HDD Electronics	7-2
7.1.1	Tear-down Analysis of Deskstar HDD	7-4
7.1.2	Further Integration Possibilities	7-5
7.2	SiGe Technology Prospects in HDD Applications	7-6
SECTION 8	MAJOR HDD SYSTEM AND SEMICONDUCTOR IC Vendors	
8.1	Product Overview of the Major HDD System (Box) Vendors	8-7
8.1.1	Seagate Technology	8-7
8.1.2	Maxtor Corporation	8-8
8.1.3	Western Digital	8-8
8.2	Product Overview of Major HDD Semiconductor Component Vendors	8-14
8.2.1	STMicroelectronics (STM)	8-14
8.2.2	Texas Instruments (TI)	8-25
8.2.3	Agere Systems	8-29
8.2.4	Marvell Semiconductor	8-30
8.2.5	IBM Microelectronics	8-31
SECTION 9	IBM SiGe TECHNOLOGY PORTFOLIO AND MISSION	9-1
9.1	Historic Perspective and Mission	9-1
9.1.1	Epilogue—From Ecstasy To Agony	9-7
9.2	IBM SiGe Foundry Business in HDD Storage Applications	9-9
9.2.1	IBM First Directive and the SiGe Technology Connection	9-10
9.2.2	IBM's Demonstration PRML Read-channel Chip	9-11
9.3	IBM Retreat from the Semiconductor Merchant Market Main street	9-14
9.3.1	IBM New Semiconductor Business Model	9-14
9.3.2	Drawbridge Companies	9-18
9.3.3	SiGe BiCMOS Role In The IBM Technology Enablement Sphere	9-19
9.4	IBM—Hitachi Storage Business Engagement	9-20
9.4.1	Engagement Overview and Implications	9-20
9.4.2	Hitachi Global Storage Technologies (HGST) Profile	9-21
9.5	Implications for SiGe Components and Foundry Vendors	9-26
9.5.1	HDD Electronics Design/Component Vendors at HGST	9-27
9.5.2	SiGe Technology Foundry Vendors	9-29
SECTION 10	MIXED-SIGNAL HDD REVENUES BY SEMICONDUCTOR TECHNOLOGIES	10-1
10.1	HDD End-System Integration Trends versus SiGe Prospects	10-3
10.1.1	Read/Write Amplifier (Preamplifier)	10-3
10.1.2	Read/Write Channel (Read Channel) Function	10-4
10.2	SiGe Component Shipments--2002 Estimates	10-6
10.2.1	Preamplifier Units, Wafers, and Revenues Metrics	10-6
10.2.2	Read Channel Units, Wafers, and Revenues Metrics	10-8
10.3	SiGe Component Shipments Trends—2002 to 2006	10-10
SECTION 11	PETROV GROUP— OUR WORK AND TERMS OF LICENSE	11-1
11.1	Our Work	11-1
11.2	Petrov Group License Agreement	11-2

LIST OF FIGURES
SEMICONDUCTOR COMPETITIVE ANALYSIS
HARD DISK DRIVE CASE STUDY

2-1	Analog-Digital Signal Spectrum™ Framework	2-4
5-1	Relative Competitive Position of SiGe Technologies.....	5-2
5-2	Three Basic SiGe Signal Speed-Power Trade-off Options	5-8
6-1	Analog-Digital Signal Spectrum™	6-2
6-2	Design Processes—Vertical Analog & Horizontal Digital	6-5
6-3	Decision-Making Framework for Mixed-signal Integration.....	6-9
6-4	Business Decision-Making Framework for Mixed-signal Integration	6-10
7-1	Head/Disk Assembly (HDA)—IBM Deskstar.....	7-3
7-2	HDD Electronics and Applicable Semiconductor Technologies	7-6
8-1	Market Positions of Major HDD Vendors	8-2
8-2	Positioning of the Leading Analog/Mixed-Signal Vendors	8-4
8-3	End-System S-Factor™—Measure of Leverage	8-5
8-4	Seagate HDDs—Key Features	8-9
8-5	Maxtor HDDs—Key Features	8-10
8-6	Western Digital HDDs—Key Features	8-12
8-7	STMicroelectronics—HDD Amplifiers	8-16
8-8	STMicroelectronics—Read/Write Channel Products	8-22
9-1	IBM SiGe Technology Portfolio.....	9-4
9-2	IBM's A-D Signal Spectrum Business Mission	9-8
9-3	IBM Merchant Market Semiconductor Business Model	9-15
9-4	Anatomy of IBM-Hitachi Storage Business Engagement	9-22
9-5	SiGe Technology Foundry Opportunity: HGST	9-30
10-1	HDD Preamplifier Unit Demand Trends (2002–2006)	10-12
